

DESCRIPTION

CHIRON is a high-efficiency, compact linear luminaire designed for wall washing, uplighting, and floodlighting effects. Its surface-mounted thin profile offers a neat solution for narrow spaces. With up to four unique lengths and several optical distributions, CHIRON can be used for a multitude of applications, ranging from recessed step and accent lighting to facade illumination. The anodized aluminum finish provides a distinct upscale appearance that discreetly complements its surroundings. CHIRON is available in three static white color temperatures: 2700K, 3000K, and 4000K, as well as in RGBW and dynamic white models.

Date: _____ Type: _____ Catalog Number: _____
